<p><u>General Terms of Service:</u></p> <p>Minimum session booking = 2 hours (music/voice) or 4 hours (audio/video post). Audio/Video Post-Production services are billed on a project basis or by the day/week, and usually do not include any 3rd party equipment/studio rental costs (i.e DVCam/ BetaSP/ DigiBeta VTRs, etc.) or tape costs, unless otherwise stated. On some low budget indie projects we'll negotiate a flat-fee package, which includes all necessary recording/editing/mixing services for the estimated number of days/weeks needed to complete the entire project. Sound design, ADR, voice over and audio "sweetening" sessions are generally billed on a session or day rate basis, which includes set-up, recording, editing and mixing. Additional fees may be charged for voice talent or session singers/musicians, travel and work outside our studio to our audio/video post partner's facilities and equipment rentals. Music composition, music supervision and jingles are done on a project basis. The above-mentioned rates are effective September 2, 2010 but may vary from project to project, depending on the nature and scope of each job.</p> <p>Our <i>next-generation real-time 3D rendering platform</i> production & animation, <i>Webcasting</i> production & animation, <i>HDTV Broadcast</i> production & animation, <i>Studio Event</i> production & animation or <i>HoloPlus Multimedia Ent.'s - live hologram show</i> production & animation are separate services, subject to final agreement signing with qualified client(s). Please include your name, company, phone, email address, mailing address and specific project details in your request. All Services subject to final post-production services agreement signing and studio availability. Feel free to contact Hollywood Icons Productions HD (HIP HD) by e-mail: hip@mark7studios.com, tel: (646) 575-1144, http://www.mark7studios.com for a custom quote. Without HIP HD's management written approval any unauthorized changes or modification of this rate card is prohibited and not valid.</p>
