To whom it may concern,

I have seen your online posting for Actors for a new film and I would like to be considered for a part. I have been working hard toward my dream of becoming an excellent Actor for years now. A role in your West point Productions film could be an important step in my journey.

I loved acting ever since I was young. I starred in films when I was in elementary school and high school. In university, I majored in Theatre Arts, putting my skills to test.

I also continued to look out for local performances and opportunities. I was privileged enough to star in two productions; "Alone at sea" and "At Home." That showed my stage prowess. I have also played key roles in films and plays that didn't include a starring role.

I hope to become a part of that cast in your venture to show what I can do.

Sincerely,

John Watkins
