Allocation Spending Plan - This sheet look much more complicated than it actually is. It allows you to split your budget into weeks and spe have to enter info in the tan /yellow cells. For instance, if you change the name of a budget item on the left, it will automatically change on you don't have to go back and forth from zero based to allocation sheet I have inserted column AA to show you how much you have to allo example on the allocation side and you want to know how much you have left to spend in the food category you would just look at cell AA-3 new stuff because I was sick of feeling like I was entering the same data twice, as well as going back and forth. It's really simple. Do your each week. In column "M" the items you actually budgeted for on the left will be bold so that they stand out more. I hope this makes budg
