

Wedding Budget Worksheet

FOR: _____

DATE: _____

Use this worksheet listing typical wedding expenses to establish your budget and help you stay on top of expenses. You need to know what you can realistically afford before you do much planning (and dreaming), whether you, your parents or your future in-laws are footing the bill for the wedding. One word of advice: Use a pencil when filling in this budget, because the numbers are going to change as your dreams get to know reality.
