Summary and Conclusions

We suggest that you focus your marketing efforts in the northwest area of the Greater Phoenix area. 85379, 85374, 85383 were the top three zip codes with the greatest concentration of existing customers.

Most of your customers have purchased their homes in the last three years. Targeting homeowners in their homes 15 years or less may be a good strategy to narrow your defined market.

The average month of purchase was June. Targeting new buyers of homes, especially in the summer months, may also be a good strategy.

\$264,000.00 was the average purchase price of the home you service. However home values were widely disbursed. Unless you have a strong feeling about the home value or approximate income of your most desired customers, this may not be a good factor to use to select other prospective customers.

Purchase Year Distribution

Purchase Year	Number of Homes Purchased
1995	3
1996	3
1997	5
1998	6
1999	10
2000	6
2001	9
2002	11
2003	14
2004	32
2005	24
2006	28
2007	27
2008	26
2009	10

Table: Number of Homes Purchased Per Year.

Purchase Price Distribution

Purchase Price	Number of Homes Purchased
\$52K-\$125K	25
\$126K-\$140K	14
\$141K-\$160K	13
\$161K-\$189K	26
\$190K-\$225K	28
\$226K-\$275K	33
\$276K-\$350K	32
\$351K-\$500K	28
\$501K+	15

Table: Purchase Price of Homes.

Statistical Analysis

	Purchase Price	Month of Purchase	Year Purchase
Count	221	218	218
Largest Value	\$1,400,000.00		2009
Minimum Value	\$52,000.00		1995
Arithmetic Mean	\$263,873.30	6.66	2004.28
Median (Middle Value)	\$228,000.00		2005
Mode (Most Occurring Value)	\$180,000.00		2004
Standard Deviation	\$157,776.06
